Healthcare with Callbridge

The communication platform for accelerated virtual care.

Secure and easy to use, Callbridge's fully stacked solution optimizes remote healthcare to meet and exceed the needs of both patients and providers.

HIPAA COMPLIANT

Provide Care Near and Far

All it takes is one click to be connected. Deliver care online immediately via appointments, follow-up visits, treatments, and more.

Serious Security and Privacy

Data is safe and secure with HIPAA compliant video conferencing software; security-first technology that ensures virtual care meets regulation.

Simple To Implement and Use

Let patients and providers connect via a browser-based solution with a customizable interface that's simple and easy to navigate. Zero downloads required.

Callbridge Makes Healthcare Easy and Secure

Manageable for Providers

Equipped with state-of-the-art features, Callbridge fits with existing technology to seamlessly augment care:

- Collaboration features and file sharing
- Coordinate meetings and schedules
- Meets regulations and supports HIPAA compliance

Straightforward for Patients

Patients can get the care they need by joining meetings from any device without ever having to leave their home:

- Zero download browser based technology
- Android and iOs mobile apps for e-visits, consultations and more
- Connect anytime, anywhere – on-demand

Video-enabled Patient Care Workflow

- Schedule a virtual visit ahead of time or make an on-demand booking.
- Option to record virtual appointments, meetings, and consults for review and or training.
- Link the meeting to your email or calendar for an easy way to join.
- Work and collaborate with other providers using screen sharing, and live video annotation.
- Stay connected from anywhere on any device. Remote locations with low bandwidth included.
- Loop in other teams, experts, and family members for fully integrated virtual care and visits.

Why Callbridge?

Virtual Consultations

With high-definition audio and video, patients and providers can participate in high-quality consults – from anywhere at any time.

Continuing Medical Training

Clinical and admin learners can join seminars, meetings, and conferences for virtual training and gain access to online courses.

Broadening The Network

Expand and connect to a global community of professionals from different specializations for second opinions and greater support.

Centralization Of Management Systems

Align with other healthcare professionals effectively using Callbridge's Drive content library for secure file sharing at your fingertips.

Engaging Collaboration

Implement collaboration features like Screen Sharing, Online Whiteboard, and Speaker Spotlight for more human-centric communication.

Expedite Referrals

Cut down patient wait time by linking to hospitals for immediate transfers, referrals and sending records electronically.

Secure File Sharing

Send patient intake forms, requisitions, resources and more via Document Sharing and Video or Text Chat.

Streamline Workflows

Capture up-to-date notes and information to integrate into existing EHR software using Smart Summaries and Transcription.

Other Integrations

Link in Google Calendar, Slack, Outlook, and API functionality for cohesive communication and effective scheduling.

Online Group Therapy Sessions

Especially for virtual mental health visits, Callbridge provides a safe and private online space independent of geographic location.

Up to **$250 Billion** of current US healthcare spend could potentially be virtualized.
(McKinsey & Company Telehealth, 2021)

Telehealth has stabilized at levels **38X** higher than before the pandemic.
(McKinsey & Company Telehealth, 2021)
