

Enterprise Team Messaging with Callbridge

Several ways to communicate without friction all in one dynamic location.

Meet, chat and collaborate with your hybrid team in a centralized digital space that organizes communication through direct messaging and channels.

One Platform For The Whole Team

Say goodbye to long-winded emails and complicated back-andforth communication. Localize conversations, files, documents, videos, and media all in one place.

Complete Organization

Uplevel delegation and collaboration. Bring cohesion and clarity to every project when you have full visibility and a history of conversation regarding projects and tasks.

Straightforward Integration

Callbridge Team Messaging makes communication happen immediately without complicated setup or additional downloads. It's included with your Callbridge account, meaning users never have to leave the app.

Callbridge Brings Your Team Together

Virtual Connections

Whether your team is nearby or dispersed, use Callbridge Team Meetings to align, meet and connect in real time. Get to the bottom of a problem and make decisions faster. Participants can seamlessly communicate via browser-based, zero-download virtual spaces on desktop or mobile apps.

Callbridge Team Messaging Workflow

Work more efficiently with people with teams of any size. Quickly fire off a message or start a group or channel for more organized chats and conversations:

Direct Messaging

- Select the plus '+' icon next to the direct messages heading to start a conversation,
- Choose who you want to be part of the conversation,
- Start chatting.

Channels

- Select the plus '+' icon next to the channels heading to create a new channel for your team or project,
- Give the channel a name and description,
- Start chatting.

Why Callbridge?

Enables Remote Teams

With all your digital tools at your fingertips, staying connected with remote teams feels like they're close by via web browser and the Android or iOs mobile app.

Grows Network

Expand your network and grow your reach to accommodate employees and clients alongside technology that scales with you.

Facilitate Global Communication

One solution creates connections between teams and departments for streamlined communication across town or overseas.

Stay Connected

Maintain internal communication across offices and virtual settings with real-time communication including SMS notifications and Text Chat.

Easy And Reliable Access

Allow for fast and easy access for employees from remote locations with high-quality audio and video connections.

Efficient Teamwork

Move faster online when people and projects come together synchronously and asynchronously. By bringing the office space online, you get what you need when you need it.

With the demand for communication and conferencing solutions, the global team collaboration software market could reach

\$16.60 by 2025

Source

Knowledge workers spend an average of

14%

of their workweek communicating and collaborating internally. Improving internal collaboration (through social tools) could help raise the productivity of interaction by

20 to 25%.
